

Osamu Ito is a results-oriented eCommerce leader backed by 8+ years in NYC wholesale fashion. A sharp eye for brand presentation and detail-oriented execution, bridging the gap between high-end fashion wholesale and technical digital operations.

CORE COMPETENCIES

Shopify • Magento • HTML / CSS / Liquid • Adobe Creative Suite • Figma • Website QA • ADA Compliance • eCommerce Merchandising • SEO & Analytics • Microsoft Clarity • Vendor & Stakeholder Management • QA & Merchandising • Klaviyo • Email Marketing

EXPERIENCE

Asian World of Martial Arts | Philadelphia, PA

Product Manager & Web Content Specialist | Aug 2023 – Present

- **Orchestrated a seamless eCommerce migration** from Shopify to Magento, utilizing HTML, CSS, and Liquid to preserve complex site architecture and enhance UI functionality.
- **Directs brand-wide creative execution**, designing high-impact homepage banners, collection imagery, and promotional assets that ensure total visual consistency across all digital touchpoints. Leverages AI tools to streamline asset production while auditing and refining team-generated graphics to ensure total visual consistency and technical precision.
- **Steers the SEO and content roadmap** by analyzing traffic trends and serving as the final editorial authority on high-intent keyword selection and URL optimization to drive organic growth.
- **Standardize Operations:** Authored detailed Magento dashboard documentation for Sales, Accounting, and Dev teams, streamlining workflows for customer creation, invoicing, and product launches to ensure data integrity across the organization.
- **Technical QA & Operations:** Manage all product-related data (tags, imagery, descriptions) and oversee third-party app integrations to ensure site speed and zero-defect functionality.

High Point Design | New York, NY

Production Manager, Hosiery & Legwear | Apr 2016 – Aug 2022

- **Brand Standards & QA:** Directed the full product development lifecycle for a leading fashion house, ensuring all apparel met rigorous quality and aesthetic standards before market launch.
- **Process Engineering:** Streamlined documentation and communication between design, sales, and overseas manufacturing, cutting operational bottlenecks and improving on-time delivery by identifying proactive solutions.

Thread Collective / Billion Tower International | New York, NY

Pre-Production & Quality Assurance | Dec 2014 – Apr 2016

- **Cross-Functional Collaboration:** Partnered with Sales and Design teams to manage order accuracy and ensure all apparel products adhered to pre-production brand guidelines and technical specifications.

- **Quality Assurance and Management:** Trained and supervised order entry team, improving processing accuracy across all customer orders.

TECHNICAL PROJECTS

Be@rbrick&Mortar | eCommerce App

Designed and built a custom marketplace with a focus on intuitive UX, featuring product search, cart management, and a streamlined checkout flow. (Stack: React.js, Ruby on Rails, PostgreSQL).

Movie Review App | CRUD Application

Developed a dynamic interface for content discovery, focusing on visual hierarchy and responsive design. (Stack: React, JSON Server, React-Bootstrap).
